

Fall asleep behind the wheel and see where you wake up

If you're sleep-deprived, fatigued or have been driving long distances without a break, please consider these drowsy driving warning signs and take the proper precautions: get off the road, get someone else to drive, or just get some sleep.

SIGNS OF DROWSY DRIVING

- Difficulty focusing, frequent blinking or heavy eyelids
- Trouble remembering the last few miles driven
- Trouble keeping your head up
- Repeated yawning
- Rubbing your eyes
- Drifting, tailgating or hitting shoulder rumble strips
- Restlessness and irritability
